A Word to the Teachers of the County:

Our meeting last year was considered one of the best in the history of the Association. Let us make the 4th annual session equal to it, if not better. It is believed that the teachers of the county are interested in the educational questions announced in this program, and it is hoped they will manifest their interest, not only by their presence, at the coming meeting, but also by active participation in the discussion of the various que stions, and by hearty co-operation in rendering the program.

Yours for a profitable meeting.
